INVESTMENT MANAGERS

Collective Investments are generally medium to long term investments. The value of participatory interests may go down as well as up and past performance is not necessarily a guide to the future. Collective Investments are traded at ruling prices and can engage in borrowing and scrip lending. The fund manager may borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity. Collective investments are calculated on a net asset value basis, which is the total value of all assets in the portfolio including any income accrual and less any permissible deductions from the portfolio. Actual investment performance will differ based on the initial fees applicable, the actual investment date and the date of reinvestment of income. A fund of fund is a portfolio that invests in portfolios of collective investment schemes, which levy their own charges, which could result in a higher fee structure for these portfolios. Fluctuations or movements in exchange rates may cause the value of underlying international investments to go up or down. The following charges are levied against the portfolio: Brokerage, auditor's fees, bank charges and trustee fees. Company scheme: Sanlam Collective Investments Ltd, PO Box 30 Sanlam 7532 / Sanlam Head Office, 2 Strand Rd, Bellville 7530. Sanlam Collective Investments is a Full Member of Association for Savings & Investment SA (ASISA). Pioneer Financial Planning is an Affiliate Member of Association for Savings & Investment SA.
